FAMOUS MINE GRANT CASE SETTLED.

By Compromise Effected by Interested Parties the Most Valuable Copper Property in New Mexico is Released from Litigation.

The famous "Nuestra Señora de los Dolores" mine grant, made by the Mexican government in 1830, and since then litigated for years and years, in the land departments, and the court of private land claims and the supreme court of the United States, is now a thing of the past. By a compromise consummated on yesterday, at the instance of the San Pedro Copper Company, the appeal pending in the supreme court of the United States, from the decision of the United States court of private land claims, in reference to this grant, has been dismissed. Also, the adverse suits in the district court of Santa Fe county and in the local United States land office, have been dismissed, and writings have been exchanged entirely harmonizing the interests of the owners of the grant with those of the copper company. The patenting of the copper company's various claims near San Pedro will now proceed without delay, and, in fact, on yesterday final receipts for the same were issued by the register and receiver.

With this accomplished, there expires one of the most interesting claims of title derived under the Mexican government. The grant in question was made by the "Jefe de primer instancia," at Santa Fe, under the denouncement proceedings to Mexican mining law. The jurisdiction of that official was questioned, and was the subject of an able opinion by the land court, handed down by Associate Justice Sloss, by which the jurisdiction was disavowed and the grant dismissed. The mine grant was considered very valuable, being estimated as worth upwards of \$200,000. The compromise was effected through the efforts of Messrs. Catron & Gortner for the mine grant owners, and Judge H. L. Warren for the copper company. The mine grant claimants benefited thereby are understood to be Governor M. A. Otero, Hon. Manuel Rito Otero, Hon. Mariano S. Otero and others.

Hanrahan, fireman of the north bound train, and Engineer Nichol Kilgigan, of the south bound train, were badly injured.

Sliding Down Hill.

The boys are bringing out their sleds to coast down hill on the south side of the town and above the Palace hotel. One boy was working on a double ripper this morning, with which to carry a coasting party. A ripper consists of two sleds set in line with a strong plank between them, the plank being screwed to the rear sled and secured to the first sled by a pivot or swivel, so that the sled turns and guides the apparatus. Large coasting parties are carried on these concerns, which can travel nearly a mile a minute on a declivity with a good load. But there is more or less danger attending the sport from speeds while traveling at a high rate of speed, and from collisions with vehicles, or from an unmanageable front or guiding sled; and every once in a while the papers print accounts of broken limbs and heads and shake-ups of lesser degree.

FORMER POSTMASTER IN TROUBLE.

C. S. Bahney, of Socorro, Fined \$1,000 for Making False Accounts of Expenses—Other Court Matters in 5th District.

In the United States district court for the 5th judicial district, held in Socorro the past week, with Judge Charles Lealand on the bench, and which adjourned yesterday afternoon, there were no criminal cases on the docket, but three matters were presented to the grand jury, which found one indictment.

The indictment found was against C. S. Bahney, formerly postmaster at Socorro. Mr. Bahney was charged with making false accounts of expenses and pleaded guilty to the charge. He was fined \$1,000 by the court and gave bond in the sum of \$2,000 for the payment of the fine before May 3, 1899, when the next term of United States court for the district will be held.

All civil matters on the docket were allowed to go over until the next term of court for the reason that there are questions pending in the territorial supreme court which will virtually determine the cases now on the United States docket for the district.

In the district court for Socorro county the case against "Bronco Bill," the train robber, who was captured last spring after a hard fight with officers, in which he was quite seriously wounded, came up today, and the accused was expected to plead to the charges against him. It is thought that the defense will ask for a change of venue.

Well Merited Promotion.

Alfred Lundell, of company F, 1st territorial regiment, has been promoted from first sergeant to 2d lieutenant by Governor Otero. The newly commissioned officer will occupy the post left vacant by the resignation of A. L. Comstock. The governor, in his selection, shows that he is anxious to encourage merit and push the enlisted men forward who are entitled to recognition. This is the second promotion from the ranks to commissioned positions. Mr. Lundell was recommended by the various line officers and Colonel McCord.
